SHOW
AT 9:30 A. M.

SALE
AT 12:30 P. M.

Saturday,

March 23, 1946
NORMAL, ILLINOIS

This sale is held under the auspices of the Illinois Polled Shorthorn Breeders' Association with the cooperation of the American Polled Shorthorn Society.

Illinois is one of the best states in which to buy Polled Shorthorn Cattle and the Illinois Polled Shorthorn Breeders' Association is one of the strongest and most dependable of the state organizations. The many buyers who have attended the annual sales sponsored by this association have learned to regard these as among the best sources of supply for good herd bulls and for dependable, profitable females. From the very beginning of their annual sales program, Illinois Polled Shorthorn breeders have consigned many of their best productions and by so doing they have boosted breed progress in the state. Always these state sales have provided animals that have yielded attractive returns to the buyers . . . and always the prices have been moderate. Again in this sale they have furnished a well rounded offering, calculated to meet the needs of critical buyers as to ages, quality and breeding. These cattle are healthy; they are consigned by reliable breeders, and they will work improvement wherever they go. Study this sale catalog carefully. Note that the best of bloodlines are represented. Now is the time and here is the opportunity to build strength into Polled Shorthorn herds.

HAL LONGLEY, Sale Manager, 16 S. Locust St., Aurora, Ill.

Polled Shorthorns are the most practical and most profitable cattle for Corn Belt farms today. Packer buyers pay a premium for fat cattle without horns; farmer bull buyers prefer the hornless type; small breeders are buying Polled bulls in order to more easily fill the farmer needs; there is no doubt but that Polled Shorthorns are the "Ultimate Type." The future is bright. Present prices are moderate. Why not buy now? This sale provides a good source of supply.

The above picture was taken on the farm of Carl M. Johnson, president of the Illinois Polled Shorthorn Breeders' Association.

Come to ILLINOIS for the Real Improvers

It is not easy to buy Polled Shorthorn females at private treaty. All of those that are offered in this sale could have been sold very easily . . . but they have been held for this sale. There are 57 of them . . . a fine selection. We ask that you note particularly the large number of serviceable age bulls as well as the large number of young cows and 2-year-old heifers that are well forward in calf to noted sires.

Take advantage of this fine buying opportunity.

Aside from his purebred Polled Shorthorn activities, Carl M. Johnson, president of the Illinois Polled Shorthorn Breeders' Association, is also famous for his steer feeding activities. The above picture shows part of a shipment of 80 choice feeders brought from Montana to be fed at Mr. Johnson's Carona Farms.
